Task 1: Company Landing Page Development

Objective:

Develop a modern, responsive landing page for GNN Logistics Inc. The landing page should effectively showcase the company's brand, services, products, and value proposition while providing an engaging user experience.

Platform Requirements:

Section	Requirement
Responsive Design	Responsive design for desktop, tablet, and mobile devices
Hero Section	Attractive hero section with a clear call-to-action
Company Overview	Company overview and mission section
Services Showcase	Services or products showcase
Testimonials	Testimonials or client reviews section
Contact Section	Contact form for inquiries
Footer	Footer with company information and links

Features:

- Core Features
- Responsive Navigation Bar
- Call-to-Action Buttons
- Contact / Inquiry Form
- Form Validation
- Google Sheets Automation
- Social Media Links
- Company Information Section

Bonus Features:

- Image Optimization
- Content Optimization
- Loading Animations
- Hover Effects & Micro-Interactions

Learning Objectives:

- Frontend web development fundamentals
- Responsive web design
- UI/UX design principles
- Component-based development
- Form handling and validation
- Animation and user interaction
- Website deployment and optimization

Suggested Tech Stack:

Category	Technologies
Frontend	HTML, CSS, JavaScript
Frameworks	React / Next.js
Styling	Tailwind CSS / Bootstrap
Animations	Framer Motion or other animation libraries

Deliverables:

- Fully functional landing page
- Source code repository with documentation
- Responsive design across devices
- Deployed website link
- README containing setup instructions
- AI prompts used to make the website

SUBMISSION GUIDLINES:

**Meet the deadlines, late submissions will
not be entertained**
